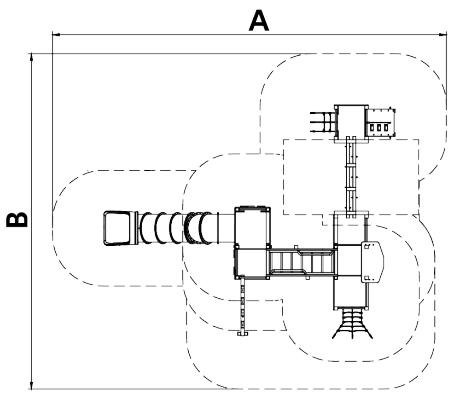
BENITO
–Playground Equipment

Modular Set
Reb 7

JREB07R

6+ | Certified EN1176 product



The REB game line is fully designed **with eco-design criteria and open playability.** Games made **from ReBnew profiles, 100% recycled and recyclable plastic,** recovered from packaging waste from selective collection. Considering that plastic waste takes between 100 and 1,000 years to degrade, this creative reuse promotes the circular economy.
Multigame structure consisting of 6 platforms, a bar bridge walkway, hanging rings, firefighter pole, different access points for climbing and descending (climbing wall, inclined net, vertical ladder, vertical climbing net, and inclined rope access ramp) 1 polyethylene tube slide at 1.6m height and blackboard.

A x B			
A=11570mm	76m2	1.5m	25
B=9850mm

Materials:

Structure, Structural Panels, ReBnew: 100% recycled plastic material with a dark ochre or light gray tone applied to give the material a colored mass. This, together with its irregular surface finish, makes the board extremely durable as it perfectly conceals possible scratches caused by acts of vandalism. It does not require maintenance, does not splinter or crack, and does not rot or dry out.

- Weather resistance.
- Resistant to oils, acids, and seawater.
- Does not degrade. Does not splinter.
- Antigraffiti.
- Resistant to moisture, does not absorb water, quick drying.
- ECOLOGICAL, it comes from recycled material and is also recyclable.
- Long service life.
- 100% Recyclable.
- Without pollutants.
- Manufactured from high-quality recycled plastics.

Decorative Panels, ECOPLAY: HDPE produced with recycled material. High-Density Polyethylene that is characterised by its resistance to chemical abrasives and is not affected by corrosion as it is a polymer. Due to its elasticity and lightness, it offers high impact resistance, making it very difficult to break.

Metal parts, DurPint: Steel with thermoplastic coating PPA 571 with a thickness of 400 µ.

Fixings: electro galvanised and stainless steel quality 8.8 DIN267, AISI-304.

- None of the materials requires a specific treatment for its disposal.
- If the product is subject to severe use, maintenance should be increased.
- Don’t use the product before the installation/maintenance is ready.
- Please check the maintenance instructions.

Biggest part (mm): / Heaviest part (kg): 740

IMPACT ZONE: Required safety surface. It is advised to coat the floor according to the EN1176-1:2017 standard.

Spare parts availability: 10 years.

Ground anchoring screws not included.

Playful features:
